The not so perfect ally

By ewaffle

William Dalrymple knows his subject from the inside—at least as inside as a western writer is able. He lives in India and is proud that his books sell well in the subcontinent. His mastery of the sources and familiarity with both the broad sweep of history and the details of people and places is clear on every page of his essay.

If “the fox knows many things, but the hedgehog knows one big thing” he would, based on this book alone, be an archetypal hedgehog, one who views the world through the lens of a single defining idea, in this case that the decades long involvement of Pakistan’s military and intelligence services in Afghanistan—an involvement that predated the American war in Afghanistan and that will continue after U.S. troops have left—is part of the Pakistan’s fear of and hatred of India

Dalrymple is clear, convincing and writes with authority. “A Deadly Triangle” is recommended to those with an interest in the politics and politics by other means of the subcontinent.

Three Stars

By Gurtej Singh

Could have been edited properly. Too much repetitive text from different articles lumped together.
