Bankruptcy- a rather dense and possibly even boring subject. This book is very much just like any casebook that is used in law school. It is full of cases and long discussions thereafter. I think you have to have an interest or a passion to learn about bankruptcy to thoroughly enjoy the content. However, this textbook gets 3 star because a lot of the cases therein focus on more recent cases and publicly known issues such as the Kmart and GM chapter 11 bankruptcies which makes reading of such tough material a little bit more interesting.
