“Secondary leaders are much like thoroughbred stallions, full of strength and power, but able to run

aimlessly without guidance or direction. Through this book, Bishop Michael Blue meets that challenge for leadership by constructing the tool equivalent to the pedigree's bit, which is attached to the bridle, to harness that power and give direction, supervision, and instruction. The application of this concept allows senior leadership consistent forward motion without opposition from those in the ancillary position."

What many people perceive as a problem with the Christian church is actually a problem with church leaders. Michael Blue tells readers that not all these problems are imagined, and that trust and integrity issues can be fixed, but not without awareness and commitment to change. Bishop Blue takes readers through a well-developed study of the many ways in which the church has veered away from its original mission, and become a reflection of the culture, rather than the powerful influence Christ intended. Readers will come to understand the responsibility of servant leaders to model personal and professional integrity at every level, thereby, restoring trustworthiness to the church and the cause of Christ.
