# CHINEASY EVERYDAY: LEARNING CHINESE THROUGH ITS CULTURE BY SHAOLAN PDF

A unique and highly entertaining introduction to the richness of Chinese language, culture, and civilization, built on the groundbreaking and hugely popular Chineasy visual learning method.

To educate the world about the richness and character of China's people, customs, and heritage, entrepreneur ShaoLan Hsueh created Chineasy, a special building-block learning method that uses highly recognizable and appealing illustrations. She introduced her revolutionary teaching methodology and graphic language in her bestseller, Chineasy.

In this standalone guide, she expands her scope to include all facets of Chinese life and culture, including Numbers, Time & Dates, The Solar System & the Five Elements, People, Nature, Animals, How to Describe Things, Health & Well-being, Travel, City & Country, Shopping, Food & Drink, and Internet & Technology. She begins all twelve sections with an overview of key Chineasy characters, then presents the specific symbols relevant to each—providing insight into how Chinese thinking has shaped its language and civilization in a way that anyone can understand and appreciate.

Whether you are a student learning Mandarin, an executive pursuing business ties to Chinese companies, or a curious tourist traveling to China, this single-volume encyclopedia will stimulate the mind, enchant the culturally minded and inspire everyone who seeks new experiences and a wider understanding of our world.

Best Chinese teaching book around!

By Amazon Customer

I have been struggling trying to learn and right Chinese. I've bought numerous books and have tried learning in various creative ways. However, nothing compares to how fun and easy it is to learn Chinese with this book! The pictures and instructions makes learning Chinese enjoyable! Highly recommended!

cool book

By Alfiya Volk

this book is so amazing!!! i've been learning characters so quickly... the only downside is Im not as familiar with the pronunciation but that's okay. I don't think both books are necessary though... pretty much the same thing.
