Avoid Kindle Version

By B. Spence

The eText is not a print replica. It's in .azw3 format (Kindle textbooks should be .azw4). The pages are not numbered and the layout is awkward (tables are split in half, etc.). Makes it hard to follow along in class IF THE PAGES AREN'T FREAKING NUMBERED.

Not used as often as I thought I would. It's usually the last reference I grab for at work.
