NURSING STUDENTS

By T. Levine

Now this book help me get to bed by 10 during clinicals in Med-Surg. This book has scientific rationales and about every disorder that you can think of. If you are in Med-Surg and need scientific rationales for you care plan try this book. I brought about 3 other care plan books that I couldn't use because the rationales were not scientific enough.. So if you want to get to bed early...Purchase this book.
