Huge ripoff, you'd be better off googling Nintex for free

By Amazon Customer

This book is a remarkable ripoff. It looks like it's just copied and pasted from the help section on the Nintex website. It's loaded with formatting errors, misaligned text, typos, and simple copy/paste errors. Most of the volume of this book is empty page space.

0 of 1 people found the following review helpful.

Five Stars

By James R. Tucker

Great service.
