The Internet has Spoiled Me

By Pamela J. Ashworth

I don't have a lot to say about this book. It's a bit overpriced - especially compared to the Ben Bella book, which I haven't read yet.

This appears to have been a self-publish.

I've read some somewhat scholarly writings on pop culture (mostly Buffy) and all of it was easier to read than this.

If you're writing for the public, you might want to dial it down a notch. (Is "nickels" even a real term for a group of five *anything*?)

Introduction to Symbolism (a real chapter title) is a bit condescending (as a title).

Aside from this, there were few outright errors (other than typos and spelling errors). 97 percent of the book's *facts* (not the interpretations thereof) are correct.

The thing which frustrated me most was the inability to feedback the authors (on the other 3%) - the book's website/domain is no longer active, after just a year, which is sad. There's no publishing company to write to. So here's the scoops, authors, if you should read this.

Meredith and Lexie are in no way "only a year apart in age" - since Thatch and Ellis didn't divorce till Mer was about 5.

and

What is this about George sniffing nitrous oxide? The thing he and Mer did that was questionable in episode two was to go look at the babies in the nursery.

Aside from those errors and the density of the material, the book was okay, but not nearly as good as any of the scholarly collections I've read on Buffy.
