This text book is incredibly thorough, yet concise. Understandable explanations and real-world examples make understanding and applying the concepts easy. The author's sense of humor makes the text that much more enjoyable. The sequencing of chapters and references within the chapters to past or future explanations is helpful. There are practice quizzes at the end of each chapter that are thought provoking and a good test of your understanding of the material. I highly recommend this book.

By RA

This was the textbook for my junior class. The author can be described as having a sense of humor which I have found rare in textbooks. The vocabulary is clear and concise and the chapters have a good progression for a new student in the field of SLP.
