Generally Helpful But Contains Some Mistakes

By tam dinh

Ok,overall this guide is helpful when studying for CDS. However, it contains lots of old information which can be very problematic. Supposedly it was updated for 4.0, however it references old contracts that aren't even in use anymore. There is also one portion that says that IBC is being developed and will be coming out soon. Umm.... IBC has been around for years. What are you actually paying for when you buy these 2010 study guides? Why would I buy this versus say a 2008 version. There is no reason to. It's just all so Kaplan can profit off of you.
