A must read book. Absolutely fascinating!!!! The world's first book on Maria Orsic and the Ladies of Vrtil, and Nikola Tesla's extraterrestrials' connection. Hundreds upon hundreds of photos, drawings and sketches from the original files. Information from secrets files of the NKVD, KGB, OSS, Gestapo, SS, MI5, and intelligence agencies in 6 countries. Everything began with Maria Orsic, including extraterrestrial messages, aliens' contacts and the UFOs in modern times. The UFO phenomenon, the first contacts with aliens from civilizations beyond our solar system, and extraterrestrials' messages, all started with an occult-metaphysical-mysticism-psychical movement created by Maria Orsic in 1917, a medium and founder of the Vrtilerinnen (The Vrtil Society), and based upon messages she received from extraterrestrials from Aldebaran (Alpha Tauri), which contained technical data and precise instructions on how to build a super "Out of this World" flying machine (UFO).

Maria Orsic is Croatian-Roman Catholic

By A. Smolic

I had bought the paperback version of this book from [...] and had mixed feelings about this book.

First, I would have given a rating of two stars for the book because of the writing, organization of material, and not backing up any statements with valid sources making the information credible. I have given 3 stars due to the interesting subject matter and exploration of Maria Orsic and Nikola Tesla along with UFO technology developed in NAZI germany.

Why I don't like the book?

1) The author Maximillian Lafayette has a reputation of being a far better writer in his past books but I don't

understand why he has changed with his writing in the publication of this book.

2) The author never backs up his statements with any credible sources but just gives hearsay statements. Does Maria Orsic exist or is it just a lie of her identity? Where are the birth certificates, school papers, and baptismal christening? Later he writes the bombing campaign of the allies destroyed all records about Maria Orsic which doesn't help the inquiring reader see the credibility of the existence of Maria Orsic.

3)The author writes his book using bullet lists compiling of sentences relaying information of the subject matter. Its as if he just have written his book using Microsoft Office 2010 word and sent it out to the printing press at lulu . And those were only his notes but not his finished final copy. He alos uses alot of photos almost making the book look more like a collage with writing notes.

4)The author has not provided accurate data of the subject matter regarding the religion/ethnicities of Maria Orsic.

Coming from a mixed Croat/Serb background, I can confirm her identity. Maria Orsic coming from Yugoslavia which consisted of 6 republics and 2 provinces had a Croatian father named Tomislav Orsic and an Austrian mother named Sabine. Maria Orsic WAS NOT GREEK ORTHODOX. Maria Orsic was ROMAN CATHOLIC. Croatians and austrians are Roman Catholic. And to confirm this information, in Northwest Croatia, the Orsic Castle was buildt by Count Krsto Orsic in 1756 located in Krapina-Zagorje county. You can find this information using the internet. Furthermore, Maria Orsic's father's name is Tomislav Orsic. Tomislav is a common name used among croatians celebrating their forefather King Tomislav who created the Croatian nation in 910-928 AD.

5) I congradulate the author for recognizing the ethnicity of Nikola Tesla being an ethnic Serb Orthodox Christian from the Lika-Krajina region of Croatia. Nikola Tesla's father was a Serbian orthodox priest named Milutin Tesla. However, the author mistakened his religion to be Greek orthodox when his religion WAS SERBIAN ORTHODOX. The liturgy was conducted in the serbian language and not the greek language.

What I liked about the book?

1) I liked the book because it raises more questions about the subject matter than gives answers for future researchers.

2) I also liked the book because it had interesting photographs of historical characters and events from the 1920s, WWII and beyond not seen. There were many interesting photos of Nikola Tesla's nephew Sava Kosanovich, Josef Stalin and German Nazi officers.

3)The book provides more information for future research of the subject matter and understanding the material. Maria Orsic is a mysterious woman and we will not know much about her.

Pure Poorly Written Fantasies

By Macno

This book is poorly written and takes for granted unsubstantiated stories. The style is really poor and the author never ever backs up his sources with true historical proofs. To make it short: this NOT an historical book but a pure fantasy book. At least it could have been presented as such. Separating historical facts from fiction in tyhe field of Nazi esotericism and occultism has been dealt with in a more relevant way in the good book Nazi Secrets.

Hard to find tid-bits

By Rene Andre

Finding anything about Maria Orsic is like hunting for the fabled unicorn. She existed in early 20th century for a short while and then she and her ladies vanished with out a trace. She left behind a remarkable story, and to this day much of the information about her is still suppressed secret information that many governments wish to keep secret - including the US government.

This is a two volume companion set. Both in a printed format. Each sold separately.

This is esoteric information with a historical context and real person connected to it. Do not believe the garbage coming from the History Channel and the like regarding Maria Orsic. The only way you can find tid-bits of truth about this woman, her organization, followers, and the successes they achieved in secret under the very nose of deadly jealous Heinrich Himmler, is by becoming your own sleuth and investigator. There are two separate volumes to this set. Number two is much harder to find in printed form. Unfortunately, volume one promises conclusions to questions that will be found in Vol. 2, but are never answered there. Vol.2 seems to have lost focus. Which seems to be a De Lafayette hallmark. Vol. 1&2 are a must for any serious Maria Orsic researcher. It is part of a mysterious grand puzzle that you have to find the pieces for and then try to reassemble. This is a good start towards that goal but no means the finale.
