This is a great book for NYC climbers

By R. Casimiro

This is a great book for NYC climbers. There are a surprising amount of places to climb real rock on the island of Manhattan - and this book does a great job illustrating where they are, what the routes are and their sometimes interesting names.

Some of the lines on the problems are a bit unclear as to what is ok or off, but from what I've seen so far it's relatively obvious.

The finish on this book feels sturdy as well. It is on thick stock and I would feel comfortable carrying this around and using it outside repeatedly.

0 of 0 people found the following review helpful.

The best climbing book I've ever used.

By Khalid

This is my favorite climbing book I've ever used. It could use a bit more consistency between sections, but otherwise is a joy to use.
