High School students SHOULD read this book!

By A Customer

First off, the way the Crucible relates to the post-war era and the 1950 McCarthy trials make it a prime choice of reading material for high school students. As a high school student myself, I found the book very interesting as a psychoanalysis of human nature. Arthur Miller has explored the concepts of guilt and hypocrisy in a very unique fashion.

The theme of how a repressed society reacts to hysteria is perused in this drama. My personal belief is that people who entrust their lives to unproven dogma find themselves trapped in a form of repression. This includes the conservative outlook posted by the former reviewer of this book.

Lies, hypocrisy, and lust are themes that teenagers begin to encounter in high school. To refuse them the liberty to have complete access to literature is to lock down the developing, free and independent thinking mind. Thus, the banning and removal of books deemed "inappropriate" by biased standards results in the formation of a repressed society much like the Puritans in the early 1600's.

Ignorance may be bliss for you, but don't punish others because of your biased, unproven religious dogma. Our society will succeed if the next generation is given a chance to use their BRAINS. Our society will fail if the conservative coalition destroys independent thinking.

Conformism is your enemy.

This is not a book that HS students should have to read.

By A Customer

The reason that I say high school students should not be required to read this is because of the profanity the cheating and the lying which the book is based on. This was a very trying time in our history but our kids should not have to be subject to reading this kind of material. Is there not another way of teaching this?
