Interesting read!

By S. Lovell

A very interesting read--I have been an ebayer for years and learned so much about ebay by reading this book, especially about the early years. The author was an awesome seller, with very clever ideas and although there were some grammar issues and typos, all-in-all it really was an exciting story and an enjoyable book!

Great book, very informational and full of facts.

By Adam Nespurek

This book is really stuffed with facts. Unlike other books, Michael describes every aspect how he built his company. It is must read for every entrepreneur. It would be great tho if there would be some sequel where he describes how he got out of his 600k personal debt.
