Bagchi's first best-selling book, *The High-Performance Entrepreneur*, shared his story of building a company. His second bestseller, *Go Kiss the World*, was the story of his life, a motivation to young people that anyone can achieve. But as Subroto Bagchi says: *Go Kiss the World* did not provide a tool kit. In *The Professional* he gives us his knowledge, based on his lifelong experience, of what it takes to be a professional, what qualities you need to become a great professional. Most importantly, he asks, and gives answers, to the toughest question every professional faces: Is what I am going to do now, faced with a difficult decision and multiple options, the professional choice to make? In a world where a Satyam saga was incomprehensible; where the global economic meltdown has affected the livelihoods of millions of people; where companies and individuals are routinely revealed to have made unprofessional choices, *The Professional* provides the explicit and implicit code of conduct the boundaries which separate a skilled individual from a professional.
