THE SINGLE GUY'S GUIDE TO RELATIONSHIPS BY AUSTIN COOPER OTOCKI PDF

This book is for you if you want to learn some new and interesting ways to interact with others, gain insight into another person's perspective and continue to be the best person you can be. If you had an unsuccessful or bad night, it doesn't matter. You can't change what has happened, but you can improve on what will happen. Do you know how to make new friends, maintain a large network of acquaintances, connect with members of the opposite sex? Austin Otocky wrote his collection of essays to help single men navigate the world of social interaction with members of both sexes. The essence of his book, he says, lies in the art of communication knowing what to say, when to say it and when to stop. A lot of times a girl won't turn you down just because she doesn't want to be a mean person....you should know when things aren't going the right way. Know when to walk away. Otocky identifies seven male personality types that attract women Artistic, Confident Guy, Romantic, Free Spirit (bad boy), Foreign (mysterious), Considerate, Intelligent and he recommends cultivating a combination of some of these traits for best results.

Great read for the majority of the populous.

By Alpal

I am female but read this book as a change of pace from my normal reads. The book is not only broken down in a way that even the most basic "I don't like to read" -types would truly benefit from but also gives a slew of fun creative alternatives to the same routine most young adults reference as dating. All in all I'd say it's a great way to gain better insight for not only men, but women as well. The author not only gives a play by play of what steps to take once you've reached specific scenarios with dating but also puts himself behind the driver's seat. Definitely worth reading.

Worth a read if you're a single guy.

By Kyle

I know the author of this book quite well and everything he produces, art or advice, is always helpful. I found this book to be quite insightful and it gives helpful information to the typical introvert single guy to help him open up and "get in the game". And I don't mean that in an animalistic way. Great read, highly recommended.

Read and learn how to improve at starting and maintaining relationships, and being a better person!

By Cory B

A great book with lots of experience put into it. Teaches you how to better yourself and develop social skills that can be used not only for starting relationships or meeting girls, but bettering yourself overall. A great book for people new to the social and dating scene, or even experienced people looking for new ideas and tips!
